PROFILE

Web developer skilled in creating responsive, user-friendly websites with AI integration. Experienced in Google SketchUp for design prototyping and 3D modeling, with a focus on solar and e-commerce projects. Proficient in using AI tools for real-time bug fixing and code optimization.

PROFESSIONAL SUMMARY

Passionate and versatile web developer in creating dynamic, responsive websites. Skilled in front-end and back-end development with a focus on user-centric design, functionality, and performance. Experienced in using Google SketchUp for 3D modeling and design prototyping, especially in solar and vendor-based projects. Adept at leveraging AI tools like ChatGPT and GitHub Copilot for real-time debugging, problem-solving, and feature enhancement. Continuously exploring new technologies to deliver high-quality and innovative digital solutions.

WORK EXPERIENCE

2024 - PRESENT

Freelance Web Developer

- Developed and maintained websites for various clients, focusing on responsiveness and performance.
- Optimized website functionality to improve user experience and speed.
- Designed prototypes and 3D models using Google SketchUp for solar and vendor-related projects, contributing to client presentations and website designs.
- Built a Solar Vendor Website (Demo available on personal portfolio) to demonstrate product listings and e-commerce functionalities.
- Leveraged AI tools (like ChatGPT, GitHub Copilot) in real-time projects to debug, optimize code, and implement innovative features efficiently.

PROJECTS SECTION

1. E-commerce Platform

- Developed a dynamic shopping platform with integrated AI product recommendations.
- React.js | Node.js | MongoDB

2. Personal Portfolio Website

- Built a fully responsive portfolio website to showcase personal projects and skills.
- React.js | Tailwind CSS

3. Solar Vendor Website (Demo Project)

- Developed a demo solar vendor e-commerce website to showcase product listings and purchase flow.
- Integrated responsive design, clean UI, and user-friendly navigation.
